

DOPS Research Guidelines: Training

Clinical, Basic, Translational (Small and Large Animals)

Required CITI modules [CITI Access Portal \(pitt.edu\)](https://www.citi.pitt.edu) (www.citi.pitt.edu)

DOPS Clinical Research Guidelines

Module	Specific Details
Responsible Conduct of Research	Required for <i>all</i> researchers
COI PHS Regulated Course	Required for <i>all</i> researchers
Human Subjects Protection	Choose "Biomedical Course"
Good Clinical Practice	Choose "GCP for Clinical Trials involving FDA regulated research"
Privacy & Information Security	Required

DOPS Basic Science Research Guidelines: No animals

Module	Specific Details
Responsible Conduct of Research	Required for <i>all</i> researchers
COI PHS Regulated Course	Required for <i>all</i> researchers
Bloodborne Pathogens for Lab Workers	Required due to adipose tissue use and cell culture
Chemical Hygiene (Not a CITI Module)	Chemical Hygiene Environmental Health and Safety University of Pittsburgh , choose "online training option"

Additional: DOPS Translational Research Guidelines: Small animals (mice/rats)

Module
Working with Small Animals
Working with Mice in Research
Working with Rats in Research Settings
Use of Controlled Substances in Basic and Animal Research
AESP survey (https://www.ehs.pitt.edu/sites/default/files/docs/Form-AESPEenroll.pdf)

Additional: DOPS Translational Research Guidelines: Large animals (pig/sheep)

Module
Working with Large Animals
Working with Sheep and Goats in Research
Working with Swine in Research Settings
Use of Controlled Substances in Basic and Animal Research
AESP survey (https://www.ehs.pitt.edu/sites/default/files/docs/Form-AESPEenroll.pdf)
